

PARTY PLEDGES MUST BE KEPT, IS GLYNN'S SLOGAN

Governor Demands Workmen's Compensation Law, Also Direct Primary.

Beneath Your Fat a Graceful Figure Dwells

ALBANY, Nov. 12.—Gov. Glynn handed the Tammany legislative leaders another surprise package when they called on him yesterday to discuss provisions of a direct primaries bill to be submitted to the Legislature when it reconvenes on Dec. 8.

"Gentlemen," was the substance of Mr. Glynn's notice to Lieut.-Gov. Wagner and Speaker "Al" Smith, "I feel that in addition to placing upon the statute books a satisfactory primaries law, it is up to the present Democratic Legislature to give the laboring people of the State a satisfactory workmen's compensation law. The Democratic platform calls for such and we should live up to our pledges."

Wagner and Smith tried to hide their astonishment, both remarking that it would be best to decide upon a direct primaries measure before considering a compensation act. Gov. Glynn explained that he had talked earlier in the day with a dozen or more leaders of labor throughout the State and had assured them that he believed the Legislature would provide a bill when it resumed sessions in December. Although Wagner and Smith looked none too pleased they promised to co-operate with the Governor in carrying out the party's platform pledge.

In discussing his plans with the newspaper men Gov. Glynn said he believed that when the Legislature returns for its final meeting the leaders and he will have agreed upon both a primaries bill and a workmen's compensation measure so that both may be put through without a hitch. Mr. Glynn would not indicate the kind of a compensation act he desired, except to say that he believed it would meet with the approval of both the employer and the employee.

In conversations he had to-day with a half dozen direct primaries advocates Gov. Glynn intimated that he would insist upon the elimination of the State convention and the retention of the party emblem from primary ballots.

Tammany's legislative leaders firmly oppose those innovations at present. The general feeling, however, is that while Tammany may succeed in retaining the emblem, it will compromise on the abolition of the convention by agreeing to submit this proposal to the votes of the people next fall.

BANKS UNCERTAIN AS TO OVERCERTIFYING

No Decision Yet, but No Disposition to Do Anything to Disadvantage of Brokers.

Wall street had a real scare yesterday when a rumor reached the Stock Exchange that the National City Bank, Chase National, Mechanics and Metals and the Bank of Commerce had decided to quit over-certifying checks for brokers. Within half an hour the rumor was found to be baseless.

"No decision has been reached," said Vice-President Kilborn of the National City Bank. "There is no disposition to act in any way disadvantageous to the Stock Exchange houses. Under the recent decision of the United States Supreme Court the old system of making clearance loans will not be changed, but a way out of the difficulty will be found."

In the decision referred to, in the Stock pool case, it was held that the National City and Mechanics and Metals Banks exceeded their rights in entering the offices of the bankrupt brokerage houses and taking securities claimed under blanket collateral notes. In return for such blanket securities, under the present system, the banks over-certify the broker's checks. The over-certification is technical and the losses have been infinitesimal in comparison with the profits, which are about \$1,000,000 annually to Clearing House banks.

SULZER "MOVIES" BARRED.

ALBANY, Nov. 12.—Chief of Police Hyatt to-day declared he would not permit the exhibition here of motion pictures purporting to be of the impeachment trial of William Sulzer. The owner of a motion picture house had been offered some of the films and he conferred with Hyatt before passing on the proposition.

Hyatt expressed the opinion that the pictures were fakes, because photographers were barred from the Senate chamber during the progress of the trial.
